

# Software exporters set for strong revenue growth in Q3: Report

PRESS TRUST OF INDIA  
Mumbai, January 3

**EXPORT-DEPENDENT SOFTWARE COMPANIES** are set to report a strong sequential revenue growth in the range of 2.6-6% in the seasonally weak December quarter, according to a report.

The December 2021 quarter earnings season will begin later this week or early next week with industry leaders TCS and Infosys announcing their numbers. In a report released on Monday, Kotak Institutional Equities forecast a strong 2.6 to 6 per cent sequential revenue growth in the seasonally weak December 2021 quarter.

The report, which however, did not offer an annualised

number, also said the picture is not rosy on EPS (earnings per share) front as it sees a fall of 15% for some and a growth of 11 per cent for others.

According to the report, HCL, Wipro and Tech Mahindra will lead the growth chart among large-caps and LT Infotech (LTI) among mid-caps of the industry that has seen strong headcount addition with higher fresher intake, amid high attrition on one hand and muted total new contracts on the other but strong actual deal-making.

December is a seasonally lean period due to furloughs. Despite the impact of furloughs, the report sees strong revenue growth led by high discretionary and continuing transaction spending.

## Tech Mahindra gets data analytics specialisation in Google Cloud partner program

**IT COMPANY TECH MAHINDRA** on Monday announced it has achieved the Data Analytics specialisation certification in the Google Cloud Partner Advantage Program, strengthening its expertise in data analytics space.

As a premier partner for Google Cloud, Tech Mahindra has been at the forefront of enabling cloud adoption for enterprises globally, the firm said. This is the fourth recognition for Tech Mahindra's partnership with Google Cloud.

"Tech Mahindra has announced today that it has achieved the Data Analytics specialisation certification in the Google Cloud Partner Advantage Program...", the company statement said.
